CHURCH TOMORROW

SERVICES CONDUCTED WITH VIEW TO BRINGING IN CONVERTS.

THREE NEW MINISTERS

Dr. Wilfley, Dr. Coile and Dr. Evans Occupy Three Pulpits—Regular Services at All Churches.

Services at the Protestant churches tomorrow will be conducted with a view to bringing in the rest of the new members who "lined up" during the Scoville meetings. Baptizing will be conducted in a number of the churches and those who are expecting to join are requested to make known their intentions as early as possible.

At the Baptist church, Dr. D. J. Evans will occupy the pulpit at the morning and evening services. He will also conduct the baptismal service for any who wish to join tomorrow. The other services will be at the usual time.

Dr. Earle Wilfley of Washington, D. C., will conduct the morning and evening services at the First Christian church in the absence of the pastor, the Rev. C. Emerson Miller, who is in Des Moines attending the national convention of Christian churches. Dr. Wilfley has been in Des Moines this week attending the sessions, but arrived in Maryville today and is a guest at the home of his brother, George L. Wilfley.

Dr. S. A. Coile of Nashville, Tenn., will again occupy the pulpit at the Presbyterian church, and it is probable that a call will be extended to him next week. The services at the church are the same as they were last Sunday, with a specially prepared musical program.

At the Buchanan Street and First Methodist churches the services will be conducted by the regular pastors, and converts will be received into the church morning and evening.

RIOTING CONTINUES.

Breaks Out Full Blast at Bayonne, N. J., After Night of Calm.

Special to The Democrat-Forum.

Bayonne, N. J., Oct. 14.—Civil warfare again flared up full blast this morning after twelve hours of calm. At three a battle raged between the strikers and the police. A 59-year-old woman died of fright when the police entered her house in search of weapons. Serious trouble is looked for as a result of the strikers' mass meeting this afternoon.

JUDGE NORTONI SAID.

Reared a Republican.

"I was educated and reared to be a Republican, who thought no good could come from a Democratic administration," he said. "My opinion has been changed, for more humanitarian legislation has been enacted under the Wilson administration than any time in the history of the country.

Men Behind Hughes.

"We know Smoot, Penrose, and the stand-patters who stole the Republican convention in 1912 are now behind the presidential candidacy of Mr. Hughes.

Greatest Humanitarian Law.

"Then a Democratic congress gave us the child labor law.

"If President Wilson has accomplished nothing else, I would have to support him for advocating this, the greatest humanitarian law ever passed by any congress."

SOME PLAIN FACTS

TRIBUNE ERRS IN ESTIMATING DEMOCRATIC RALLY CROWD.

SCOVILLE TENT USED

If "4,000 Sat Breathless" at Revival Sermon, Why Not at Thursday's Meeting When Tent Was Full?

Correspondents to metropolitan newspapers seem to take unto themselves a certain license during campaign times to do enough artistic lying to secure life memberships in Col. Roosevelt's Ananias club. Local papers, however, are expected to restrain themselves and adhere to the vicinity at least of well known facts.

In its report of the Democratic rally Thursday, the Maryville Tribune had the following: "There were a good many people here yesterday—probably as many as were here the day before when the Republicans of Nodaway county opened their campaign. The big tent brought here for the occasion seats 2,200, and it was well filled," etc.

As to whether there were as many people here on Thursday as there were on Wednesday is of no vital concern. Everybody who saw both crowds knows there were. But the Tribune doesn't seem able to follow its own tracks. It takes a mighty smooth individual to do that, unless he sticks to the straight and narrow way. The tent which the Tribune says "was brought here for the occasion" is the same tent that was brought here for the Scoville meetings, and is the same tent that was used for the Scoville meetings. It was secured afterward for the Democratic speaking and was never out of Maryville between the close of the Scoville meetings and October 12, when it was used by the Democrats. It did not shrink nor fade away, though in place of the choir loft a smaller platform was erected and folding chairs were rented to supplement the seats used during the Scoville meetings.

On September 25, during the Scoville meetings, the Tribune said: "Nearly 4,000 persons sat breathless while Dr. Charles Reign Scoville told them of the foregoing case." We presume, if they "sat breathless' that they were seated. But how could 4,000 persons be seated if the tent only seats 2,200, as the Tribune says in its issue of October 13? The Tribune has clearly misstated a fact in one issue or the other.

During the Scoville meetings the Tribune frequently stated that the "big tent" would seat 3,500, and that the attendance was sometimes 2,700, sometimes 3,000, 3,100 and so on. Did our friend get wrong so frequently, and when such a good influence was over him, or did he purposely get wrong on this last occasion for political purposes?

Eph Tilton, who placed the seats in the big tent for the Democratic speaking, says he counted them and that there were 1,600 benches seating two persons each, affording seats for 3,200 persons. In addition to these there were rented for the occasion 300 folding chairs from the local furniture stores and there were a number of seats on the speakers' platform. Everybody who was there, including the editor of the Tribune, knows that many who could not be seated were compelled to stand inside the tent during the vice president's address, while others remained outside. The seats were all occupied and many more were in demand.

Of course, it makes no difference, but a good many have been wondering. If 4,000 people could sit breathless during the Scoville meetings, why is it only 2,200 could be accommodated in the same tent with all seats filled last Thursday. Maybe the Tribune knows, we don't.

Bradley of Bedford in a Cadillac.

Bedford had auto races last Friday and all of these cars will be at the Maryville races. The following is from a Bedford paper about the races:

Dare-devil Bradley, the demon driver of Taylor county, put fear into the hearts of all aspiring Barney Oldfields on Friday afternoon on the Bedford track, when he drove his powerful 8-cylinder Cadillac touring car against the field of twelve of the best pilots in southwestern Iowa, equipped with high powered racing engines, stripped for action, and easily carried off first honors in a preliminary ten-mile event and later in the ten-mile final.

The second event was also a thriller, "Bob" Shively, in a Studebaker of the vintage of 1909, piloting the old blue blood to victory after beting closely pressed by Black in a Packard. "Bob" had stripped his car down and tuned it up to the proper tension and sprung a surprise on everpbody present who expected to see engine trouble develop at any minute. While the Packard had the best of him on speed, Shively proved more than the Packard's equal as a pilot on the sharp turns, making them with the engine wide open while Packard shut down. At the finish "Bob" was closely pressed leading his opponent by a few yards.

A Business Comparison

An examination of newspaper circulations is of especial interest just now. Paper is high, so high in fact that no paper can afford to carry more than its legitimate, bona-fide, number of subscribers, and no effort is being made to increase circulations. The Democrat-Forum has enjoyed a steady, consistent, increase in its circulation ever since its establishment until it has now reached the highest number of readers ever attained by any daily newspaper in Nodaway county. After recently paring down its list of exchanges, cutting off many delinquents and free copies, it is still printing more papers daily than it or any other daily paper has heretofore.

The federal law requires daily newspapers to make affidavit to their average daily circulation every six months and publish a statement of same. The last three sworn statements of the Maryville papers are as follows:

Daily Tribune.		Daily Democrat-Forum.	
October, 1915	2,900	October, 1915	2,979
April, 1916	2,650	April, 1916	3,042
October, 1916	2,300	October, 1916	3,217

The Democrat-Forum has no contest or premium circulation.

LAWN FETE BRINGS $130

Women of South Methodist Church Expect to Clear $115—Mrs. Osburn Makes "Hit" as "Cousin Sue."

The women of the Buchanan Street Methodist church who conducted a lawn fete at Beal Place yesterday afternoon and evening are more than pleased with the results, and are sincerely grateful for the whole-hearted patronage not only of the members of the church but also of those who are not. The latest report shows that $130 was taken in, and of this amount the women expect to clear $115.

The lawn at Beal Place was beautifully decorated and especially well lighted for the occasion and the booths were designed with a view to displaying the goods for sale in a most artistic manner. In fact, the candy, punch, fancy work and flower "nicnacs" were so artistically displayed that they were sold long before dark.

Mrs. W. J. Osburn as "Cousin Sue" made the hit of the evening, furnishing amusement for the visitors and dispensing popcorn balls and cookies.

Supper, consisting of all kinds of home-made dainties, was served to the guests in the evening.

The following article is taken from the Kansas City Times, which they clipped from the Cheyenne, (Wyo.) State Leader, about Theodore Ray, a son of Mr. and Mrs. James W. Ray of this city:

If you own a dog so mean and cantankerous, so wild and savage that no one wants to see it around, a dog so generally bad natured that it is a burden to itself and everybody else, notify Sheriff Gleason. He has found just the place for an animal of that sort.

The big rally Thursday was what might be correctly termed "a hum dinger."

The Dickey silo, manufactured by Walter S. Dickey, Republican candidate for United States senator in Missouri, is being well advertised in Missouri newspapers just now.

Dr. Jake Geiger thinks the farmers are getting so much for what they raise that it makes it too hard on the people who have to buy farm products. Dr. Jake evidently forgot and let a part of his St. Joe speech slip into his speech in Maryville.

No lives were lost on the ships torpedoed by German U boats off the coast of Massachusetts last week. President Wilson wrung from the German government a promise that innocent lives would not be sacrificed in these raids, and the German government announces that it will keep the promise.

There are two candidates from whom the voters in Missouri are to select a United States senator to represent them. The present junior senator, James A. Reed, brilliant, forceful, vigorous and fearless, has made a national impression as one of the greatest champions of popular rights in the senate. He desires to be returned. Then there is Walter S. Dickey of Kansas City, who has amassed a fortune of millions from the sewer pipe trust, of which he is the head. James A. Reed is one of the country's foremost lawyers and has no private interests to serve. Walter Dickey is interested in tariff rates. James A. Reed has proved himself the friend of labor and the friend of all the people. Walter Dickey runs his business on the "open shop" plan and would add to the senate membership another representative of "big business." James A. Reed is a great speaker, a great debater, able to hold his own with any man who is or may be sent to the senate. Walter Dickey is not. James A. Reed helped to drive the lobby from the corridors of the capitol. Walter Dickey is a member of the Manufacturers' association, which sent its representatives there Take your choice.

ONE DAY ONLY—HOURS 9:00 A. M. TO 6:00 P. M.

Remarkable Success of Talented Physician in the Treatment of Chronic Diseases

OFFER SERVICES FREE OF CHARGE

The United Doctors Specialist, licensed by the State of Missouri for the treatment of all diseases, including deformities, nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality that at last treatments have been discovered that are reasonably sure and certain in their effect.

The United Doctors are experts in the treatment of chronic diseases and so great and wonderful have been the results that in many cases it is hard to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, rheumatism, sciatica, tapeworm, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated, chronic diseases that have baffled the skill of the family physician, should not fail to call. Deafness often has been cured in sixty days.

According to their system no more operation for appendicitis, gall stones, tumors, goiter, piles, etc., as all cases accepted will be treated without operation or hypodermic injection, as they were among the first in America to earn the name of "Bloodless Surgeons" by doing away with the knife with blood and with all pain in the successful treatment of these dangerous diseases.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out or run-down men and women, no matter what your ailment may be, call; it costs you nothing.

Remember, this free offer is for this visit only.

Married ladies come with their husbands and minors with their parents.

$1,000 OPEN PRIZE CONTEST.

Outgrowth of Edison's Preference for Untechnical Opinions of His Achievement in Music's Re-Creation.

More than 1,000,000 people are employed in the various industries founded by Thomas A. Edison. In the United States alone over 600,000 men and women earn their livelihood in vocations created by Edison's genius. This year the week of October 16th-21st will be observed throughout the United States and Canada as Edison week.

Among the many things planned for the celebration of Edison week is a $1,000 prize contest arranged by associates of the inventor. This contest had its origin in a remark which Mr. Edison made last spring to one of his assistants.

Music is Mr. Edison's hobby. He has always contended that there is no reason why a phonograph could not be made which would reproduce musical sounds so perfectly that the mechanical reproduction would be exactly like the original music, in fact, so exactly like it as to be indistinguishable from the original. For years Mr. Edison has stated that when he got time he would develop such a phonograph. Scientists generally scoffed at this idea, and even his own laboratory assistants, with the exception of two or three.

Several years ago, having completed his work on the storage battery, Mr. Edison decided that he would try to develop a means of recording and reproducing sound which would make the reproduction indistinguishable from the original. It proved to be the longest and most costly research work ever undertaken by Mr. Edison. He spent nearly $3,000,000 in experiments alone, and these experiments were not completed until March of this year. When the new invention and new record were perfected, Mr. Edison said, "Now we shall find out what we have. Rent Carnegie hall, New York City, and get Madame Rappold of the Metropolitan opera to go over there. Have her stand beside the new phonograph and sing an actual comparison with our records of her voice. Invite the music critics and the music lovers of New York City. Get the most critical audience you can possibly get. If I have succeeded in doing what I set out to do, they won't be able to tell Madame Rappold's voice from the phonograph's reproduction of her voice."

The test was made on April 28th before an audience of 2,500 people, and just as Mr. Edison had prophesied, it proved impossible to distinguish Madame Rappold's voice from Edison's reproduction of it. Next day the New York papers were enthusiastic in their praise of Edison's new invention.

Mr. Edison's associates remembering this remark decided to get the opinions of non-expert and non-technical people. Without Mr. Edison's knowledge they arranged through the Koch Pharmacy of this city, and merchants of several other cities, to place a number of these new instruments in various homes and get the untechnical opinions of typical American families.

To stimulate interest in the matter $1,000 in prizes are offered for the best opinions. This contest occurs during Edison week. The first prize is $500, the second $200, and the third $100. Then there is a consolation contest with prizes aggregating $200. Opinions which do not win prizes, but which are nevertheless considered worthy of publication, will be purchased at 10 cents per word. No opinion is to exceed 200 words in length. Literary excellence will not be considered. Professional writers and all persons connected with the phonograph industry are barred from the competition, as it is desired to obtain only untechnical opinions.

High School Notes

By WILLIAM VAN CLEVE

The students chosen by Miss Keeler to make up the staff of the school paper held a meeting yesterday afternoon in Miss Keeler's room. Plans for the first issue were discussed and the different editors were assigned their duties. The paper will be controlled by the English department of the high school under Miss Keeler and Mr. Berger. The first issue will be about November 1.

The members of the staff are:

Editors-in-chief, Mildred Bellows and William Van Cleve; business managers Howard Martin and Eugene Yehle; athletic editor, Clifford Hull; society editor, Eugene Martin; local editors, Esther Dietz, Velma Foreman and Mildred Shinabargar; reporters, Joe Kemp, Chilton Robinson, Lela Greene, Mabelle Cook and Mabel Fraser.

Clifford Hull suggests that every reporter should acquire a little black notebook, a big pencil and a knowing look.

Three assemblies were held last week, the "pep" assembly Monday, the inquest Tuesday, and the advanced senior program Friday. The "pep" assembly Monday was so successful that at least fifty students journeyed over to the "slaughter of the innocents" at Stanberry. At the assembly Tuesday the football team proved to be a pretty live bunch of corpses. They demonstrated that they still had "the old fight," and are confident that the outcome of the next game will be different. They will play Savannah here next Friday and a good game is certain.

* * *

The advanced senior program yesterday came up to expectations. Quite a delegation of alumni came down from the Normal and renewed old friendships. The program was as follows:

Piano duet—Mildred Bellows and Laura Curfman.

Reading—Fay Herndon.

Farce comedy, "Borrowing Trouble."

Two numbers by the "Maryville high school senior sympathy orchestra," directed by the Hon. William Craig Tinney. Every member of the class appeared in this orchestra, and this is the first class in the history of the school to have a complete orchestra composed exclusively of its own members. The two numbers, "Sextet from L'Allegro" and "Infliction upon Shakespeare, with Vacillations," were much appreciated and enthusiastically encored by the audience.

The cast of characters for the farce was as follows:

Mr. Borrow, a "victim of circumstances"—Claud Glass.

Mrs. Borrow, his wife—Mildred Bellows.

Sophia Borrow, their daughter—Laura Curfman.

Spottem, the detective—Henry Sawyers.

Mrs. Wiggins, the landlady—Fay Myers.

Dr. Drench, the doctor—Craig Tinney.

Mehitable March, the gossip—Cecile Fraser.

Lina, the servant—Greta Kemp.

The play was directed by Miss Halley, who is the sponsor of the class.

* * *

After school was dismissed Thursday noon the students of the high school and the grades massed at the south end of the campus and stood in the rain to wait for the procession bringing Vice President Marshall from the train. They were greatly disappointed when the vice president refused to say a few words to them. School was dismissed in the afternoon so that those who wished to do so might hear him speak at the Democratic meeting on the school grounds.

* * *

Miss Halley—Do you think Rockefeller's or Andrew Carnegies' money is tainted?

Student—Yes, in two separate and distinct ways.

Miss Halley—How?

Student—First, 'taint yours, and, second, 'taint mine.

("Seth" Cook gave us this one.)

Prof. Magee is some football scout. He went to Stanberry yesterday afternoon expecting to see a football game between Albany and Stanberry and thus get a line on Albany. As it happened, Stanberry was playing at Bethany and Albany at Gallatin.

* * *

Miss Rooker (in higher arithmetic)—Mr. Martin, how long did it take you to balance those accounts?

Gene Martin—Oh, about an hour.

Craig Tinney (aside)—If it took him that long to add 'em (Adam) I wonder if he got through before Eve.
